SKILLS

- Object Oriented Programming
- RESTful API Integration
- HTML
- CSS
- JavaScript
- TypeScript
- Node.js
- MySQL
- Bootstrap
- Tailwind

PROFILE

I am transitioning from a successful sales career to tech, with a strong foundation in software development. Experienced in optimizing processes and leveraging HTML, CSS, and JavaScript to build user-centric solutions. Skilled in API integration and effective project collaboration.

EXPERIENCE

UCI Coding Bootcamp
June 2024 - Present
Software Development Student

- I am currently enrolled in an intensive coding bootcamp focused on full-stack web development, including front-end and back-end technologies.
- Hands-on experience with HTML, CSS, JavaScript, and key frameworks/libraries such as Tailwind, Bootstrap, Node.js.
- Developed several practical projects, including a memory card flip game and a RESTful API-based surf report website, demonstrating proficiency in coding and problem-solving.
- Worked in team environments to design, develop, and implement web applications, emphasizing agile methodologies and effective communication.

Better Debt Solutions
April 2023 - Present
Sr Debt Advisor

- Conducted thorough financial assessments with prospective clients to understand their debt situations and needs.
- Utilized consultative sales techniques to build trust and facilitate successful program enrollments.
- Managed client relationships and provided ongoing support to ensure client satisfaction and retention.

Generation Lending
August 2022 - April 2024
Sr Mortgage Banker

- Advised clients on loan options and terms, ensuring alignment with their financial goals and needs.
- Stayed current with industry regulations and market trends to offer informed advice and comply with lending guidelines.
- Provided detailed loan analysis and recommendations, contributing to the successful closing of 125 loans and exceeding sales targets by 27%.
